Open-sourcing everything: our finances, our code, our events, our content, and our planning documents.

Role modelling: by running large projects we provide thought leadership and inspire others.

A photograph showing a large crowd of people, mostly young adults, sitting in rows in what appears to be a cafeteria or large hall. They are all wearing face masks. In the foreground, a person's back is visible, looking towards the camera. The background shows a ceiling with exposed pipes and some hanging plants. Overlaid on the image is a large white text that reads "Hack Club's Assemble".
